## WINDOW FASTENER AND STAY IN ONE

### NEW IN THE RANGE

AXA is the first to market a product that **is a window fastener and stay in one!** The AXA Oyster® combines the functions of the window fasteners and the stay for outward opening windows. This means that only one product is needed for the window instead of three.

The AXA Oyster® is not only a window fastener but can also be used safely for ventilation in two positions, thanks to the built-in, comfortable stay function. This is unique in the market! The patented design is manufactured from solid stainless steel and the construction is strong enough to meet all the current security requirements. In addition the AXA Oyster® has a built-in damper which can absorb any gusts of wind.

**UNIQUE!** WINDOW FASTENER AND STAY IN ONE

### DESIGN

Instead of two window fasteners and a Habilis window stay, only **one product need now be fitted to the window**. This makes a huge difference to the number of visible elements on the window and the fitting time. The fixing aids become almost invisible behind the fitted product. The AXA Oyster® lines up with the frame due to the vertical position and the window has a sleek and calm appearance.

AXA OYSTER® SITUATION

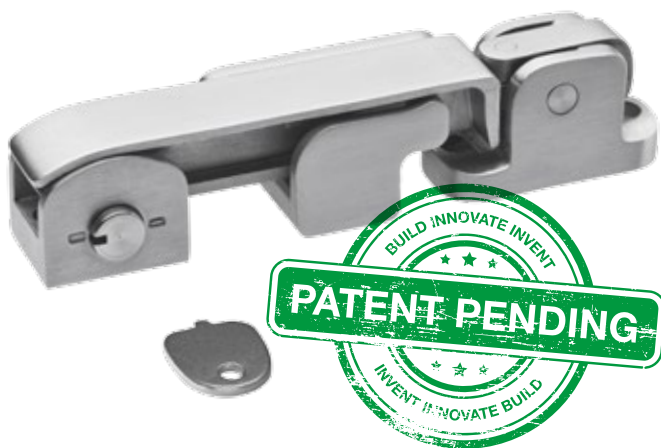

STANDARD SITUATION

## ASSEMBLY

The AXA Oyster can be installed independently on windows with heights between 27 and 180 cm, and widths between 30 and 120 cm. The new design provides **greater assembly tolerance** and can absorb up to 4 mm subsistence of the window. The product's closing force is adjustable during assembly.

## SECURITY

The child protection ensures that children cannot independently open the window. The AXA Oyster® is very secure and can withstand the **latest burglary methods**. It meets the requirements of the SKG\*\* hallmark when the window is closed, it meets the requirements of the SKG ✓ hallmark when in the two ventilation positions and is the only one that is Lock-Jockey proof (cannot be manipulated from outside). There is no other product available that meets these requirements! The product also meets the requirements of the Police Hallmark for Safe Living.

## INTERESTED?

Would you like to know more about our AXA Oyster®? Then contact your account manager or our office on **+31 (0)318 - 536 111**.

## OPERATION

### EASY TO PUT IN AJAR POSITION

When **the handle is pushed upwards**, the fastener will open and the window will automatically click into the secured ajar position. There is then a choice of two ventilation positions: medium or the rattle-free Silence ventilation position for an optimal night's rest.

### FULLY OPEN

In order to fully open the window, the handle must be pushed **down completely** and tilted out of the lock at the top.

### WHY SHOULD YOU CHOOSE THE AXA OYSTER®

- ✿ Sturdy window fastener and stay in one
- ✿ Secure ventilation, even when open
- ✿ Perfect for combining with a fly screen or window decoration
